Located in Encinitas Ranch, just minutes from the coast, golf, and neighborhood trails, this home balances thoughtful design with everyday livability. The backyard is designed for year-round use, with a built-in fireplace, overhead heaters, and spa creating a comfortable setting for evenings at home. The family room flows naturally from the kitchen, anchored by a fireplace with custom built-ins that balance texture and simplicity. Expansive windows draw in natural light while a glass door opens to the backyard creating an easy indoor-outdoor connection. The result is a space that feels open, welcoming, and perfectly suited for gathering with family or hosting friends. At the heart of the kitchen, a statement Wolf six-burner range is framed by artisan tile and a custom wood hood, while the built-in Sub-Zero refrigerator integrates beautifully into the surrounding cabinetry. Quartz countertops extend across a generous island with seating, offering ample space for meal prep, casual dining, or conversation. The primary suite is designed as a private retreat, offering generous scale, layered ceiling detail, and abundant natural light. The space feels open, airy, and quietly refined, with a seamless flow into the spa-like primary bath featuring an expansive dual-sink vanity with extensive storage, a separate soaking tub, and a walk-in shower. Completing the home are three additional bedrooms, each with its own ensuite bathroom, including an entry level bedroom and full bathroom. A Tesla Powerwall in the
